

PIPE STRIPPER

The pipe stripper is essential to make the pipe installation work fast and accurate. The strong and durable internal blade of the pliers offers a precise engraving in the tube.

FEATURES

Mebra Plastik's pipe stripper is perfect in making pipe installation quick and precise. The **durable and strong blade** offers a **precise cut** with each pass making the tube ready to be installed. We offer various types of universal pipe stripping pliers "DS" and "TS" series with diameters ranging from 4, 6 and 8mm for the smallest pliers and 10, 12mm for the largest pliers.
