

## PROTECTION CAPS

Mebra has plastic caps available to be used as protection in the ends of double and triple layer inguian tubes.

### FEATURES

The plastic tube **protection caps** are perfect for protecting the ends of double and triple layer inguian tubes which, being formed by **layers of different materials**, may need **additional protection in the ends where the tube is uncovered. and exposed to abrasions**. We have various types of plastic caps available in packs of 10 and 20 pieces with measures ranging from covering tubes with an external diameter of 8,10,12 and 14 mm.

### SECTORS

AUTOMOTIVE

INDUSTRIAL
